Innovation & Entrepreneurship Journey

How to apply?

Application Dates

Round 1: 21 Oct-17 Nov. Programmes available:

Master's in Renewable Energy

Master's in Energy for Smart Cities

Master's in Smart Electrical Networks and Systems

Master's in Energy Transition

Master's in Nuclear Energy

Master's in Energy Technologies

Round 2: 25 Nov-19 Jan

All programmes available

Round 3: 27 Jan-8 Mar

Round 4: 16 Mar-26 Apr

Round 5: 4 May - 7 June

Participating programmes on Round 3,4 & 5 will depend on seat availability. Non EU applicants are encouraged to apply before Round 5 to ensure sufficient time for visa processing and housing arrangements.

Application Process

1. Prepare your documents

- A copy of your Bachelor's degree certificate
- A copy of your transcript of records
- Proof of English proficiency
- Your CV or resume
- A copy of your passport
- Where required, a motivation letter explaining why you wish to apply to the programme

2. Apply Online

- Complete our online application before the application deadline of the Round that you are interested in

3. If accepted, send certified copies

Fees and funding

Investing in an InnoEnergy Master's programme is investing in your future as it provides you with an invaluable network of European energy champions and countless add-on activities that are hard to come by at most universities.

Participation fee: €15,000 per year (excl accommodation and travel costs to/from country of origin)

No application fee.

€250 registration fee required from all accepted students.

€5,000/€7,000/€10,000 waivers and scholarships available including scholarships for students from partner universities.

XCNT Entrepreneurial Scholarship

Master's in Energy Technologies

- €15.000 participation fee waiver

XCNT - a tech company builder in the space of energy, infrastructure, mobility & health - and InnoEnergy have teamed up to support the ambitions of an entrepreneurial female student of the Master's in Energy Technologies.

This exclusive opportunity is designed to boost the innovation skills of a top talent through a combination of leading-edge InnoEnergy education, real industry experience, personal development and the endorsement of XCNT. This scholarship is only available for accepted candidates of Energy Technologies from Round 2.

Thank you, any questions?
